

BLAUDIECK® food hoses are absolutely neutral to taste and odour and are internationally well-known. Their hygienically smooth rubber respectively UPE liners are suitable for conveying a great variety of products. With UPE liner they are resistant to extreme detergents and disinfectants. They comply with all international recommendations, such as BfR and FDA.

BLAUDIECK® Food Hoses: The safe Solution!

Advantages ...

- ▶ lining and cover resistant to oily and fatty products and caustic solutions
- ▶ resistant to temperatures from -35 °C up to +95 °C
- ▶ resistant to steam up to +130 °C (for disinfection)
- ▶ high quality fitting system for a hygienically clean connection without any transition between hose liner and fitting; suitable for pigging
